Term 3 Week 7 Wednesday 3rd September 2014

Welcome parents / caregivers to Week 7 at Glenview this Term!

Thank you to those parents who attended the Student Led Conferences last week. Some of the feedback I have received from both teachers and parents, has been very positive. Many commenting on how confident their child(ren) were in talking about their work. Remember if you want to discuss any issues that arose from the conferences you can make an appointment to see your child's teacher.

School Survey

Thank you parents for returning your community survey. If you have mislaid it you can pick up another at the school office. It is important we know what our parents are thinking if we are making strategic decisions regarding your children. All returned surveys give the family an opportunity to win a \$100 grocery voucher.

School Production

The organisation for the school production is well underway. The tickets for this event are now on sale. Thank you to the parents who are assisting class teachers with the production. Your efforts are much appreciated.

Continual Problem

Following on from my comments last week about parents dropping children off on Bruce Avenue then walking straight across the road. A resident has complained to the council regarding vehicles pulling up on the grass verge. The Council has advised him they will send road wardens out to ticket any offenders. I again ask everyone to act responsibly regarding the use of Bruce Avenue.

Mathathon.

Thank you everyone who supported the PTA Mathathon fundraiser. To date we have collected over \$6500 dollars. This is a fantastic effort. A reminder children must bring their forms back as this is what goes in the draw for prizes. This will happen at our last assembly.

Glenview School 50th Reunion

This year is the 50th Reunion of Glenview Primary. It is taking place on Friday the 31st of October and Saturday the 1st November. If you are an ex pupil, teacher, PTA or BOT member you are more than welcome to attend. Registrations are now open on the school website.

Tony Mangan
Principal

Smell Hear Touch Taste See

I smell the beautiful smell of coconuts

. I see the waves crashing over each other

. I can feel the nice cold breeze across my face

. I can hear a big great rumble through the earth

. I can taste fear

As I walked along the beach line the sand squished between my toes. I decided to change my path and walk towards a coconut tree. As I get near to the tree I could smell the sweet scent of coconuts. The smell seduced me and I couldn't control it but the scent was telling me "pick one, one won't hurt" I decided that the coconuts weren't coming down so I had to go up to get one when a coconut knocked me unconscious.

As I came to everything was shaking, the sand was jumping like they were on trampolines. The trees were slowly tilting over just about squashing everything in its way. I started to run away from this destruction. I paused for a second to see what I was frightened of. All I could see was trees falling and LAVA! The lava was orange with a hint of red and burning hot! I had to keep running but what about the baby!
