Cultural Diversity and Māori Dimension

We will reflect New Zealand's cultural diversity by:

Providing equal opportunities for all students
Through incorporating the principles of the Treaty of Waitangi within the teaching and learning environment.
Where possible class programmes, contexts and practices will reflect New Zealand's cultural diversity and the unique position of the Māori culture where the identity, language and culture of Māori learners and their whānau, hapu and iwi are affirmed.

The unique position of the Māori by:

With a third of our role Māori it is essential that this is reflected in the life of the school. With a focus on 'what works for Māori students, works for all students', programmes will reflect the bicultural nature of Aotearoa.

We will incorporate Tikanga and te reo Māori into the school's curriculum by:

Incorporating mautauranga (Māori knowledge/ understanding) Te Reo /Tikanga Māori in all areas of the curriculum, providing powhiri for special occasions, marae study, waiata and kapa haka programmes and celebrating significant Māori occasions (Matariki).

As the relationship between Whānau and school develops it is anticipated further assistance will be provided to enhance the quality of Tikanga Māori programmes in the school.
Integrating Te Reo Māori as part of the curriculum areas in an appropriate manner.

Level 4B Delivery schoolwide as a minimum

To discover the views and concerns of the school's Māori community, we will:

Consult with the school Whānau through our communication networks so we are aware of the views and concerns of the Māori community. We will also consult with Māori families through our annual survey, aggregating their data separately. The Principal will report the aggregation of Māori achievement data to the BOT separately where appropriate.

Set specific goals & expectations for Māori students through reporting procedures
